HIGHLIGHTS FROM FINEHOMEBUILDING.COM

## Cool fun in the summer sun

Could there be a better way to break out of the indoors than with a glistening pool outside your door, inviting you to dive right in? We don't think so. Just viewing these three projects, submitted to our recent online contest, makes us feel relaxed and refreshed.

### BACKYARD PARADISE

This elegant pool and cabana turned a lackluster yard into a welcoming space for entertaining family and friends. To complement the Mediterranean-style home, the cabana—with its fully equipped outdoor kitchen—has a custom stucco finish and tiled roof. The pool features in-water bar seating and a waterfall that flows into it from a raised hot tub. Whether one is lounging under the gracefully curving cypress pergola or indulging in a moonlight swim, large and small gas fire pits add evening warmth and ambience.
